Jesse Luckey Winters, Space Management Director, FP&M

Re: Retiring SRPC Fund 150 Remodeling Allocation Policy

This memo memorializes the decision to retire the Space and Remodeling Policy Committee Fund 150 Remodeling Allocation Policy (policy attached).

Funding previously managed under this policy will now be handled through operational allocations to FP&M for the fume hood program. Accommodation requests will be managed case-by-case by HR and the McBurney Disability Resource Center.

This change simplifies funding processes and improves accountability for these important areas of work. The change was effective in fiscal year 2025.

There are no changes to the SRPC Fund 101 Remodeling Allocation Policy at this time.

See the table on page 2 for a summary of the fund policy transition.

This policy retirement was the result of discussion and review by the Space and Remodeling Policy Committee, Facilities Planning and Management, the Madison Budget Office, and other campus stakeholders. Key context points included:

- Madison Budget Office reviewed budgets, fund management, and revisions to historical practices
- Scope and costs were greater than policy amounts which were 20+ years old
- Funding by committee created gray areas and made work execution and budget accountability difficult
- The goal of this change is to realign funding within operational budgets and identify clear scope and budget responsibilities for the appropriate campus groups

This policy was never fully codified in the UW-Madison policy library, and no changes or updates are required.
